

WINNING IT ALL

In NASCAR, there is more than just winning races, points are awarded based on finishing order. These points determine how drivers rank against their fellow competitors. In each series the champion is determined by how many points they accumulate.

When a driver holds the championship trophy at the end of the year, it is the culmination of a season of hard work, wins, consistency, teamwork, preparation, determination, and sometimes a bit of luck.

Earning this achievement in any of NASCAR's top series marks a driver as one of the best of the best. They become part of the sport's history, adding their name to the enduring legacy of NASCAR champions.
